

A huge congratulations to the Year 3/4 Hot Shots team who won their tournament at Danes Camp Leisure Centre!

EBPS ROUNDUP SPRING 1

Our chance to show you all of the incredible things which have been happening at Earls Barton Primary School this half-term.

Year 3 started off their new topic in History with a bang! 'Off The Page' came in to do a whole Ancient Egyptian experience day for them in the hall!

Year 5 have had lessons with Bikeability to learn how to cycle safely on the roads! They practised on the playground before heading out into the village.

Rock on!! We have had an extremely successful launch of Times Tables Rock Stars and Numbots across the school! Competition is really heating up between the children as they try to make it on to the leader board!

Year 5 sent off their 'Cracking Contraptions' to the creators of Wallace and Gromit and they were clearly impressed by what they saw! They sent Year 5 a DVD, a beautiful book and even a signed postcard from Wallace and Gromit!

Year 1 have been using the chime bars to compose their own music.

They have then performed their own music to the rest of the class!

Year 4 have been making bread in Design & Technology. They taste-tested and improved their kneading skills before making their own bread which they then tasted and evaluated!

Year 2 have really enjoyed diving into the Talk For Writing unit. They have been using charcoal to sketch dragon's heads in Art and creating dragon traps in Design and Technology!

Year 6 have been applying their persuasive skills to a series of 'Chindogu' - useless inventions!

It really took all their powers of persuasion to convince us to purchase these products!

Year 3 have been investigating friction in Science. They tested cars (with a little help from Lightning McQueen) travelling down ramps using several different materials to see which ones created more/less friction!

Year 1 have been tasting and testing a wide variety of fruit in Design and Technology!

They have also been learning how to use a range of tools and equipment in readiness for cutting their own fruit.

The incredible Simon Aston (Online Safety and Well-being Officer for Northamptonshire) came in to deliver Online Safety workshops for Years 1-6. He then hosted a fantastic video session for parents in the evening!

Year 5 were very excited to receive French letters from their pen pals in Niort, France! They wrote all about their hobbies and activities they enjoyed doing.

Year 6 have been learning about the circulatory system in Science. They ended their topic by conducting an investigation into how exercise affects pulse rate. They planned and carried out their investigation, then analysed the data!

Year 3 used clay to create dragon eyes as part of their hook for their new Talk For Writing unit. As part of learning how to write a 'Defeat the Monster' story, the children were really creative and made a superb range of eyes!

Year 4 are hooked on their new Talk For Writing unit! To prepare for their new unit on warning stories, they created masks and experienced what it was like to be a monster and an innocent child!
