

# Sports Premium Report

## What is the PE and sport premium for primary schools?

The Government has renewed its commitment to improving physical education (PE) and sport in primary schools by continuing to fund the sports premium for the academic year 2020-2021. At Earls Barton Primary School, all stakeholders have a shared vision in that the money should be used for encouraging and developing a lifelong love of being active.

The money is allocated directly to the school and we can choose how we use the funding, for example:

1. Hire specialist PE teachers or qualified sports coaches to work with primary teachers on upskilling in key areas of the PE curriculum.
2. Support and involve the least active children by providing before and after-school sports clubs in a range of sporting activities.
3. Provide resources and training courses in PE and sport for teachers.
4. Run sport competitions and increase pupils' participation in the [School Games](#).
5. Run sports activities with other schools.
6. Develop a 'Healthy Week' in which all areas of health are focussed on.
7. Ensuring all children who attend Earls Barton Primary School are given the opportunity to develop water skills. As such we will be offering all Year 6 pupils who cannot swim 25m unaided a course of swimming lessons.

In the academic year 2020-2021 Earls Barton Primary school has been allocated a total of £19,950. As a result of the impact of Covid 19 the school has a carry forward of £11,833.64.

Earls Barton Primary School objectives aim to follow the Department for Education visions which are:

**All pupils leaving primary school physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy lifestyle and lifelong participation in physical activity and sport.**

5 key indicators are used to measure progress against this objective as follows:

1. The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles.
2. The profile of PE and sport being raised across the school as a tool for whole school.

3. Increased confidence, knowledge and skills of all staff in teaching PE and sport.
4. Broader experience of a range of sports and activities offered to all pupils.
5. Increased participation in competitive sport.
